this book explores anti apartheid movements on university and college campuses across africa and the united states in the 1970s and 1980s in the wake of the march 1960 sharpeville massacre in south africa the country s apartheid policies drew increasing critical international attention by the 1970s south africa found itself isolated due to growing sporting economic and cultural boycotts africans across the continent showed solidarity with black south africans through a range of boycotts and protests by hosting south africans exiled from their home country and by vilifying the apartheid government at every turn this volume looks at elite institutions as well as state colleges and universities in the united states and the actions of university students in nigeria kenya ghana and south africa during the anti apartheid movements in the 1970s and 1980s revealing the local manifestations of a global struggle the chapters showcase how vibrant campus anti apartheid movements were what universal problems emerged and where unique concerns manifested at a wide range of institutions taking innovative approaches and offering case studies struggle for a free south africa reveals the myriad ways the anti apartheid struggle manifested in a range of academic environments and how those campaigns have been remembered and documented this book was originally published as a special issue of safundi

a weekly news summary of the major daily newspapers in the pretoria johannesburg metropolitan area

geophysics is a comparatively young science which only evolved as a distinct discipline during the 19th century however its phenomena like earthquakes tsunamis volcanic eruptions and lightning had been objects of fear curiosity and speculation since ancient times in this book johan de beer and his research team reveal that geophysical activity in south africa can be traced back to as early as 1488 this is a truly astonishing revelation which deserves to be firmly entrenched as part of the country s proud history the book also discusses the history and formation of south african geophysical institutions that made a huge and seldom acknowledged contribution to the technological development of southern africa

first published in 1988 the dictionary of contemporary politics of southern africa provides a guide to the often confusing politics of southern africa the book identifies and explains political figures organisations systems and terminology from the region in a clear and practical way it covers eleven countries angola botswana lesotho malawi mozambique namibia south africa swaziland tanzania zambia and zimbabwe although first published in 1988 this book will be a valuable resource for journalists students diplomats business people and anyone else who is interested in the politics of this richly diverse continent

vols for 1932 1940 contain cape geographical society report
